**RE:** Travel Report – Fiscal Year 2007-2008

**DATE:** October 31, 2008

The enclosed Travel Report for Fiscal Year 2007-2008 is provided for your information. The Comptroller General's Office compiled the report from data recorded in the Statewide Accounting and Reporting System (STARS). Agencies that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems supplementally submitted their travel to us which we have also included in this report.

This report is intended to be used as a management tool to assist agency heads in ensuring that the state's financial resources are being used efficiently. Please contact me if you have any questions about this report.

## **PREFACE**

The Comptroller General's Office compiled this report on travel expenditures for the fiscal year ended June 30, 2008, to the extent possible, from data recorded in the Statewide Accounting and Reporting System. Agencies that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems, such as the state's technical colleges, state-supported universities, and certain autonomously-organized component units of the state that receive state appropriated funds, supplementally submitted their travel data to us which we have also included in this report.

Employee job titles were obtained from the Budget and Control Board's Office of Human Resources (OHR) except for legislative and judicial agencies. Each legislative and judicial agency submitted the job titles for their people listed in this report.

This report includes travel related expenditures paid from state, federal, and other sources by all agencies that received appropriations in the 2007-2008 Appropriations Act. Expenditures for travel costs incurred in the issuance of bonds, state-owned leased cars, and employee moving expenses are not included. Persons employed by one agency may incur travel expenditures that are appropriately charged to another agency. In these instances, the employee and the related travel is listed under the agency that paid for the travel.

This report is divided into three sections.

**Section One** contains a summary of in-state, out-of-state, and non-state employee travel expenditures by agency. Out-of-state travel includes domestic travel outside the state as well as travel outside the borders of the United States. Non-state employee travel represents expenditures made by agencies on behalf of non-state employees for transportation, mileage, lodging, meals, and other legal charges necessary in the performance of their services while under contract with the State. This category includes registration fees and travel paid to volunteer workers. Section One lists agencies in descending order beginning with the agency that spent the most on travel.

**Section Two** ranks each agency by the combined total amount spent on in-state and out-of-state travel. For each agency, the top twenty-five employee travelers are listed in descending order according to the amount expended. For agencies with more than twenty-five employee travelers, a line-item is included to show the total travel expenditures of all other employees not listed in the top twenty-five. In instances where more than one employee incurred the same amount of travel expenditures as one of the top twenty-five, each employee is listed. Therefore, it is possible that some agencies will have more than twenty-five employees listed. Expenditures for non-state employee travel are not included in this section. Accordingly, an agency's rank in Section Two may differ from its rank in Section One.

**Section Three** contains narratives provided by each agency. The narratives summarize the type of travel incurred by each agency. Agencies are listed alphabetically.

# **SECTION THREE**

**Travel Summaries by Agency  
in Alphabetical Order**

# **TRAVEL SUMMARIES**

## **ACCIDENT FUND, STATE**

All travel incurred by the State Accident Fund during the reporting period was directly related to providing essential services to or on the behalf of our policyholders. Travel expenses can be divided into four major groups. The first and largest single source of travel expenses was related to unallocated loss adjustment expenses. These activities include claim investigations, interviewing witnesses, gathering evidence, and representing our policyholders at administrative hearings. The second group consisted of underwriting expenses. Meeting with new and potential customers and conducting the annual policy audits to review payroll information and insure proper classification of employees. The third group included delivery of safety and loss control services to our policyholders to assist them in reducing the frequency and severity of their claims. The fourth group included customer relation visits, attendance by key personnel at professional conferences and seminars, employee development, delivering training services, and other required travel.

## **ADJUTANT GENERAL'S OFFICE**

Travel in the Office of the Adjutant General is necessitated by mandated inspections, training, and seminars. 78% of the travel is paid using federal dollars.

### **Army Guard Master Cooperative Agreement (MCA)**

Operations and Maintenance, Environmental, Distance Learning, and ITAM expenditures were 100% federal. Most expenditures were related to National Guard Bureau (NGB) training and conferences held out of state. One Environmental employee had significant in-state travel to armories in support of the hazardous materials/waste program.

### **Youth Challenge**

Expenditures were for employees from each of the two programs. Most travel was mandated by the NGB and received 100% federal funding vs. the normal 60/40 funding for Youth Challenge.

### **Emergency Management Division**

Employees' travel related to radiological emergency response planning paid from earmarked funds from the State's five nuclear facilities. One is the Hurricane Program Manager whose travel is 50% federal and 50% state. Travel was mandated for training after the Katrina Disaster. The Director of EMD represents the State at the national and regional level. His travel included the National Hurricane Conference, National Emergency Management Association Conference, and in-state training events.

## **ADMINISTRATIVE LAW COURT**

The Administrative Law Court incurs several types of in state and out of state travel that benefit the agency. The Chief Judge and Associate Judges attend the National Administrative Law Judge Conference and the National Judicial College to keep abreast of Administrative Law changes. Law Clerks and staff attorneys attend the annual SCAARLA Conference and Hearing Officers may attend the National Association of Hearing Officers Annual Conference.

## **AGRICULTURE DEPARTMENT**

To accomplish the mission of this agency and keep agriculture a strong industry in our state, our staff must travel extensively both in and out of state.

Many of our employees visit with major chain receivers, food service companies, food and agricultural product brokers and varieties of others involved in the food, fiber and beverage industry both in state and out of state. Our consumer service inspectors, fruit and vegetable inspectors and poultry inspectors must travel to ensure compliance with our petroleum, weight/measure and food statutes.

### **AIKEN TECHNICAL COLLEGE**

Aiken Technical College (ATC) faculty and staff participate in training and professional development opportunities to provide instruction and/or enhance their current job knowledge, skills and abilities. Some faculty and staff members hold leadership positions within their respective fields and attend regional conferences. Out-of-state travel includes attendance and speaker engagements at national annual conferences, meetings and training programs such as; Institute for Facilities Management (APPA); Datatel Users Group (DUG); National Council for Continuing Education and Training (NCCET); Workforce and Business Development Institute; National Coalition Building Institute (NCBI); National Council for Workforce Education; Learning Resource Network (LERN); American Association of Community Colleges (AACC); National Association of Student Personnel Administrators (NASPA) and Student Leadership Training. Travel out-of-state is necessary to obtain and maintain accreditation for academic programs and the College such as National League Nursing Accreditation Council (NLNAC) and Southern Association of Colleges and Schools (SACS) respectively.

ATC is participating in Achieving the Dream, Community Colleges Count. This required the college to send the entire core team to the national meeting in Dallas TX. This was a requirement of the grant. Additional national meetings are mandatory for the participant colleges.

Travel is funded with federal grant, state grant and local dollars. WorkKeys profilers' travel is billable to the Workforce and Business Development clients. State appropriated funds are not allocated to travel.

### **ALCOHOL AND OTHER DRUG ABUSE SERVICES, DEPARTMENT OF**

With the budget cuts experienced since 2001-2002, the School has become very conservative about traveling and as a result, has decreased the amount of travel by 75%.

Travel costs includes a voucher for \$3,050.00 that was mistakenly coded as travel instead of testing services. This voucher was processed right before our freeze period for SCEIS. In the confusion and chaos of the implementation of a new accounting system, the voucher was never corrected in STARS or SAP.

### **WINTHROP UNIVERSITY**

Travel at Winthrop University is encouraged for three (3) primary reasons. These include the recruitment of a high-quality and diverse student body, the recruitment of student athletes, and the development of faculty and staff in their career paths.

This development includes expenditures to send faculty and staff to conferences, workshops, and symposia which will result in higher levels of productivity and job-related competencies. It is our belief that having competent and productive employees results in being able to provide a higher quality education at the lowest possible cost to the students' families and to the taxpayers.

### **WORKERS' COMPENSATION COMMISSION**

In-State travel expenditures fall into two general categories: (1) all Commissioners conducting Workers' Compensation hearings in different counties within the state; and (2) various educational programs and seminars that pertain to an individual's position, such as the South Carolina Workers' Compensation Educational Association Annual Meeting and Government Finance Officers Association.

Out-of-State expenditures fall into four general categories: (1) attendance at various International Association of Industrial Accident Boards of Commissions (IAIABC) conventions, (2) attendance at the Workers' Compensation Medical Seminar, (3) attendance at the National Council on Compensation Insurance (NCCI), Southern Association of Workers' Compensation Administrators (SAWCA) and (4) specific educational programs and seminars that pertains to an individual's position.
